

MEMORANDUM

Date: February 26, 2008

To: Building Inspectors, Management Planners, Supervisors, Workers, Air Samplers,
Project Designers, Contractors, and Training Providers

From: Robin S. Mack, Asbestos Section

Re: Identification badge use for personnel licensing

The Department is excited to announce that beginning **April 1, 2008** we will start issuing identification badges as licenses for Worker, Supervisor, Building Inspector, Management Planner, Project Designer, and Air Sampler disciplines. Starting **April 1, 2008**, personnel license applications submitted by mail must include at least a passport sized (2" x 2") photograph. Applicants that hand deliver their application for a personnel license may have their picture taken by the Department at no additional charge. The identification badges will be issued when existing licenses are renewed or new licenses are issued.
